

# BGDSHS STATIONARY DOCK SHELTER

## FEATURES AND SPECIFICATIONS

Designed to accommodate 10.5' x 10.5' door openings, the BGDSHS is engineered to accommodate larger doorways and docks that serve a bigger variety of trailer types and sizes. It provides full access to the rear of the trailer while fitting snugly around the top and sides. Cross-docking traffic is protected from weather conditions, adding an extra degree of safety to the process.

Standard units seal trailers 12' to 13.5' high on a typical 4' dock height.

### STANDARD FEATURES:

- 24" projection
- 22 oz. Hi-Tear vinyl base fabric
- Durable head unit measuring 138" wide, with a 24" projection and a 36" drop curtain
- Protective wear flaps / pleats on head curtain
- High visibility yellow guide stripe
- Pressure-treated lumber framing
- Peaked header frame to divert water from dock floor
- Galvanized mounting hardware

For maximum value and performance, the BGDSHS can be constructed from our premium durability fabrics (see chart for materials, weights, and available colors).

### ADDITIONAL OPTIONS INCLUDE:

- Painted steel frame
- Galvanized steel frame
- Additional drop in head curtain
- Additional width on side curtains
- Gussets in head curtain
